OSTEOPATHY.

An Interesting Article on the Wonderful Progress of Medi-

cal Science WHICH IS ASTOUNDING THE WORLD

The Science of Drugless Healing is Founder Upon Anatomy.

Some Interesting Facts About the Work of the Franklin Institute.

OSTEOPATHY THE COMING SCIENCE

[Green River Republican.] The most beautiful, if not the greatest discovery of the age, the one of widest significance, which will be most velcomed by the whole human family, because of its intimate relationship to its needs, their success and their happiness, has been made in the science of materia medica.

The discovery promulgation and rapid strides into public favor of the science of Osteopathy is a refutation of all our

ful and observant that the old schools of medicine have not kept pace with the world's progress. The reason for this is not the lack of education, training or experience-all these they have bad, and yet death and disease stalk stalwartly through our land more defiantly than ever, in very mockery of Indiana. their skill. It is because the base upon which they raise the superstructure is wrong, and no logic and no education can get away from this fact. The Green River Republican makes this statement with reluctance and many regrets, but with the certainty born of conviction and of incontrovertable proofs, which dmit neither of eavil nor dispute.

The science of medicine as now practiced possesses neither philosophy nor blacks. common sense, being based chiefly on conjecture and improved by error. Their most curative agents are admitmore dangerous to the patient than the disease the physician professes to cure. I can bonestly recombined the physician professes to cure. I can bonestly recombined the girl at noon, while Thompson was mend Foley's Honey and Tar as a quick locked up by Patrolman, Buddell at 6 one disease, too often implant the seeds

'ul surgeon? He is recognized by his ability to do the most cutting and carving of the human body in the shortest ime. Do we not see on all sides useless and even senseless wielding of the knife, where the surgeon finds to his dismay that the supposed offending organ or part is perfectly sound or nor-

Happily for humanity these things are becoming things of the past. The had the nail in his mouth and it slipped brightening rays of Osteopathy are down his windpipe and he become hysrapidly dispelling the gloom of prejudice and ignorance with their benign common sense, practical and effective
